RUTGERS
The State University of New Jersey

Rutgers China Bridge Program in Engineering July 22 - August 11, 2013

ABOUT RUTGERS

Rutgers, The State University of New Jersey, is a leading national public research university and the state's preeminent, comprehensive public institution of higher education. Rutgers is dedicated to teaching that meets the highest standards of excellence; to conducting research that breaks new ground; and to turning knowledge into solutions for local, national, and global communities.

Rutgers is widely recognized as among the top public research universities in the United States. It is the only public university in New Jersey to be invited to join the Association of American Universities, an organization comprising the 62 leading universities in North America. The Newark Campus is consistently ranked the most diverse in the nation by U.S. News & World Report, while numerous academic departments are considered among the top 10 in their discipline.

Rutgers is deeply rooted in New Jersey, a densely populated, diverse, and complex state that is a microcosm of 21st-century America. Rutgers also enjoys close proximity to some of America's major cities such as New York City, Washington D.C. and Philadelphia.

RUTGERS CHINA BRIDGE PROGRAM IN ENGINEERING

The Rutgers China Bridge Program at Rutgers, The State University of New Jersey, offers Chinese university students the opportunity to attend a series of lectures and workshops at Rutgers' prestigious School of Engineering.

Throughout the course of the program, students will be exposed to a range of academic and cultural experiences. The program is designed to train students who come from a STEM (Science, Technology, Engineering, or Mathematics) background, and who are eager to become better skilled in English and experience what a top American university has to offer. The program consists of a series of lectures at the School of Engineering, as well as English language training. Students will also be introduced and immersed into the Rutgers student life through interacting with Rutgers students and faculty members.

ELIGIBILITY FOR PARTICIPATION

Academic background:

The student must be from a reputable 4 year college or university. (211 institution)

The student must be in good academic standing.

The student must be enrolled in a STEM (Science, Technology, Engineering, or Mathematics) major.

English proficiency:

The student must be proficient in the English language. Students who have taken and passed CET 4 are preferred; however, for those who have not taken the exam, a transcript that includes the English classes s/he has taken is required.

The student must submit a nonrefundable deposit of 400 USD by April 15, and pay the full balance by July 1.

COST

The total program cost is \$6,000 USD. This includes round-trip ground transportation between Newark Liberty International Airport and the Rutgers University campus, orientation event, workshops, seminars, visits to other university campuses, textbooks, residence hall accommodations, guest speakers, art and cultural activities, use of the recreation center and campus center facilities, bus trips to New York City, Philadelphia, and sites throughout New Jersey, and a final reception.

Disclaime

The Rutgers School of Engineering and the Rutgers China Office reserve the right to change the curricula, dates, and other activities associated with the Rutgers China Bridge Program in Engineering. The provisions of this program do not constitute a contract, express or implied, between any applicant, student, or faculty member and Rutgers University.
